

CLLR CEDWIEN BROWN – MONTHLY REPORT DECEMBER 2020

The recent “repair” to Glendon Road near to the junctions of Columbus Crescent and Churchill Close was very unsatisfactory, with the road left in a very uneven state and lumps of road surface coming loose and breaking away less than 24 hours after the repair was completed so I’m back in touch with Northamptonshire County Council and the Highways team to get the repair repaired! They are sending an engineer out again to inspect. I’ve also requested that they look at the “repair” further down Glendon Road, at the bottom of Bunkers Hill as that too is already breaking up.

I’ve also logged a call with NCC regarding the drains at the bottom of Castle Hill near to the junction with Bridge Street / Market Hill as both are blocked with silt and debris and cause flooding right across the road to the square when it rains.

I attended the small Remembrance Service held at the War Memorial on Sunday 7th November and laid the wreath on behalf of our MP, Philip Hollobone.

I attended the November virtual meeting of the North Northants Shadow Authority Overview and Scrutiny meeting.

I attended the November virtual meeting of the Rothwell Branch Royal British Legion.

CLLR MARGARET TALBOT MONTHLY REPORT DECEMBER 2020

- I attended Zoom meeting of Monitoring and Audit, KBC. Details of the air quality in Rothwell were discussed and a further discussion will take place at the Town Council meeting on 8th December.
- I will be attending the Northamptonshire Larger Council Partnership on 3rd December and will provide an update at the next Town Council meeting.
